About Me

MERN Stack Developer // Educator

I am a dedicated full-stack developer with over 4+ years of advanced experience in the teaching field. I possess proficiency in Web API design, as well as expertise in programming languages, including C, Java, and Python. My proven track record demonstrates meticulous attention to detail, creativity, and the ability to complete projects within tight deadlines.

Professional Experience

Technical Trainer

Pyramid Consulting

- Conducted sessions for students, focusing on the C language and Data Structures and Algorithms (DSA), covering a range of topics.
- Trained over 10,000 students across various technology stacks. Participated in Campus Recruitment Training (CRT) for different educational institutions in multiple locations.
- Facilitated offline training in Web Dev, both in development and instruction.

Seed Infotech

- Conducted enlightening training sessions for Campus Recruitment at the esteemed DKTE, DY Patil, and P R Pote Patil College of Engineering and Management at Kolhapur and Amravati in Maharashtra.
- Guided students through the realms of Python with DSA, including libraries such as Numpy and Pandas.

Mastersolis InfoTech (SeminarRoom)

- Conducted training sessions at Gokak, Karnataka.
- Instructed students in UI/UX - Figma and the laws of UX.
- Taught students how to start from scratch in the designing of a product or website. Finding a problem and then brainstorming ways for the solution.
